

Parking, Rigging and Launching

We ask your cooperation in following these guidelines in order to avoid congestion.

1. **SAFETY CHAINS ARE REQUIRED TO BE IN USE WHENEVER A VEHICLE TOWING A TRAILER IS IN MOTION ANYWHERE ON LCYC PROPERTY.**
2. Please follow the instructions of the Traffic Coordinators.
3. Rigging: Boats MUST be rigged for launching in the rigging area near the gated entrance. Cars cannot be parked on the launch ramp after launching.
4. After launching, boats should be expeditiously moved to the outer dock area so as not to delay the launching of the next boat.
5. Empty trailers should be parked in the upper area as indicated on the map. Very limited space is available at the top of the launch ramp for trailer storage.
6. Do not park cars in the area at the top of the ramp. We need the room to line up boats for launch and to maintain traffic circulation.
